

Environmental Sensitization Policy

It is necessary to sensitize students towards environment from a very young age. Gurunanak College of Arts, Science and Commerce strives to achieve this goal through a number of initiatives such as No Plastic Day, No Vehicle Day, Workshops on how to produce seed-bombs, eco-friendly colors for Holi, eco-friendly Ganesh idols for Ganapati, and Workshop on 'Reduce, Reuse, Recycle' to name a few. The college makes efforts to procure products which are recycled, environment friendly, energy efficient and locally sourced. The college has rain water harvesting system and a compost pit on its campus. Apart from it, college monitors and reduces its energy consumption by

- Conducting energy audit
- Promoting products and services that result in less energy consumption and emissions
- Adopting energy efficient operating procedures for facility management and travel
- Use of solar panels
- Composting of wet waste to organic manure
- E waste collection drive
- Plastic waste collection drive
- Awareness lectures on Rain water harvesting, kitchen gardening
